

About

Our Story

"Our vision is for a sustainable and resilient conservation community, where the achievements of the profession are valued and recognized for providing a wider benefit to society and its future".

Julian Bickersteth, President IIC

As an independent international professional society IIC is uniquely positioned in the world. We believe conservation is of great value, by looking after our cultural heritage and our own and others' cultural identity we are helping to improve the richness and quality of life for everyone.

IIC was founded in 1950 by a group of men and women who witnessed dramatic events during WW2. A number of them were part of the Monuments, Fine Arts and Archives programme and they were involved in saving internationally important historic and artistic works from being lost forever, they became known as the Monuments Men.

Today we have a strong global network of distinguished Fellows, members and Institutions representing more than 70 countries. We have close relationships with thousands of Conservators and heritage professionals internationally.

IIC has over 7,000 engaged supporters and 40,000 social media contacts globally. We have long-established partnerships with leading museums, universities and heritage bodies all around the world.

Our vision, mission and values is set out in more detail in [IIC's Strategy 2030](#).

Our Purpose

We are an independent international professional institute. We bring together conservation professionals from around the world, educating, enabling and recognising excellence.

This commitment drives everything we do – from the intellectually stimulating Congresses to activities specifically tailored to capture the imagination and curiosity student conservators.

Our *Studies in Conservation* records and publishes the latest developments in the field, our enquiry-led Dialogues host discussions and the development of new ideas, our Awards recognise and celebrate the greatest achievements and promote the work of conservation

professionals for the common good, and our highly sought after Fellowships and Honorary Memberships acknowledge the status and contribution of the highest achievers of the profession.
