

# Fellowships Available - Winterthur Museum, Garden & Library

Submitted by Marina Herriges on 06 Dec 2024

Winterthur Museum, Garden & Library is pleased to announce it is currently accepting applications for the 2025–2026 cohort, offering financial awards to scholars at all stages of their careers through short-term, dissertation, maker-creator and postdoctoral fellowships. [See details here.](#)

Through a new partnership with the American Trust for the British Library, we are offering opportunities to work at Winterthur and within the British Library's expansive collections.

Time at Winterthur offers fellows unparalleled access to an independent research library and museum whose collections encourage understanding and appreciation of the cultural, artistic, social, and intellectual history of the Americas in a global context from the 17th to the 20th centuries, complemented by conservation labs, and extensive gardens situated in 1,000 acres of preserved meadows and farmland. Two renovated residences at Winterthur offer researchers accommodations within the estate's serene surroundings. Fellows will enjoy newly renovated office space, 24-7 access to the circulating library collections, and the opportunity to participate in a variety of programs in a thriving intellectual community that supports two graduate-level programs in art conservation and American material culture.

Applications are now available and must be submitted online via the application portal. Please direct questions to [academicprograms@winterthur.org](mailto:academicprograms@winterthur.org)

Deadline for applications: January 15, 2025
