

# ACTION PLAN WITH AMANDA PAGLIARINO

In this session, Amanda Pagliarino explains the different sections of the environmental action plan and gives some examples of key areas of the action plan. Amanda uses her context in Australia to illustrate some examples that were developed at the Queensland Art Gallery | Gallery of Modern Art (QAGOMA), in Australia.

## Session Structure

### preparing the action plan

Minute 1: [Download your environmental action plan](#)

Download the IIC template - *Environmental Action Plan*.

Use this template to outline your strategy, mission and objectives, record your targets and set your action plan.

IIC NET ZERO PILOT PROJECT

### preparing the action plan

1'40": Action plan, section 6: Global and local sustainability goals

Section 6. Global and local sustainability goals

Think about how your plan aligns with - your organisation or business objectives, local government and council aims, and global sustainability goals.

IIC NET ZERO PILOT PROJECT

Your plan will reference the UN 2030 Sustainable Development Goals. You'll find the link in the template.

2': Sustainable development Goals

**preparing the action plan**

Section 7. The carbon baseline

The carbon baseline is calculated through the audit.  
The first audit will give you the baseline greenhouse gas emissions for Scopes 1 (direct), 2 & 3 (indirect).
